Junior Geographer ATLAS

ACTIVITY 2b

Maps

3. **Maps** show information in a visual way. Turn to pages 38–39. Use the information from the map to do the following.

   a. Every map has a title. The title appears in the orange box in the map legend. What is the title of this map?

   _____

   Look in the map legend. This map uses both color and symbols to represent places. Match the color or symbol with the land use category.

   b. • • forestry

   c. red • • farming

   d. • • urban area

   e. Now look at the map itself. Find the state of Texas (TX). Cross out any land uses not found in Texas.

   Urban Area No widespread use Farming Ranching Forestry

Photos and Graphs

4. **Photos** and **graphs** also present information in a visual way. Turn to pages 18–19. Use the photos and graph to answer the following questions.

   a. Look at the photos at the top of the page and then work your way down the page. What type of body of water does the top photo on page 18 show?

   _____

   b. Each photo has a **caption** that explains what the photo shows. Like the introduction, captions put new words in bold. Look at the photo captions on page 19. Write two of the words that are in bold on the lines below.

   _____ _____

   c. What is the title of the graph on this page?

   _____

   d. Which of these six rivers are just under 1500 miles long?
